

Serial No. 10/582,097

I. AMENDMENTS

Amendments to the Specification

Please amend the Specification as follows:

Please amend the paragraph on page 7, lines 16-19 as follows:

The system is completed with a board or special boards which have sheets or slabs of ferromagnetic material incorporated on the surface on which the magnetic field is ~~deactivated~~ closed, created by the electromagnets of each boot, that way creating enough attraction strength so that the board or boards do not detach from said boots.
